PROJECTS

E-Commerce Website using React

- Description - Developed a dynamic web application using React, JavaScript, and various front-end libraries.
- Built an intuitive user interface that enhances user experience and leveraged React's reusable components for faster development.
- Implemented efficient data management techniques such as Context API and used API integrations to create a seamless experience for the end-user
- Techs: HTML   CSS   Styled-components   React   React-icons   Context API
- Sourcecode- (https://github.com/athulnirappen/e-commerce-React)

Movie App

- Designed and developed a responsive web application using React and modern front-end technologies.
- Utilized my expertise in React, JavaScript, and CSS to build reusable components.
- Implement effective state management, and optimize performance. Followed best practices for code quality, version control, and testing to deliver high-quality code.
- Techs: HTML   CSS   React   Context API
- Sourcecode- (https://github.com/athulnirappen/Movie-App)

SKILLS

- Development Languages

  C   Python   Javascript

- Front end Technologies

  HTML   CSS   Bootstrap   Styled-components   Scss   Javascript   React.js   Context API   Redux

- Back end Technologies

  Node.js   Express.js   MongoDB   RESTful APIs   Json

- Development Tools

  Git   GitHub   Visual Studio Code   PyCharm

STRENGTHS

Verbal and Written communication   Team Work   Adaptability   Reliability and Consistent   Committed to lifelong learning   Flexibility
